

The background features a dark blue gradient with faint, light blue technical diagrams. On the left side, there is a large circular scale with numerical markings from 140 to 260 in increments of 10. Several circular diagrams with arrows and dashed lines are scattered across the page, suggesting a technical or engineering theme.

# WCS PRO HOME WORKSPACE

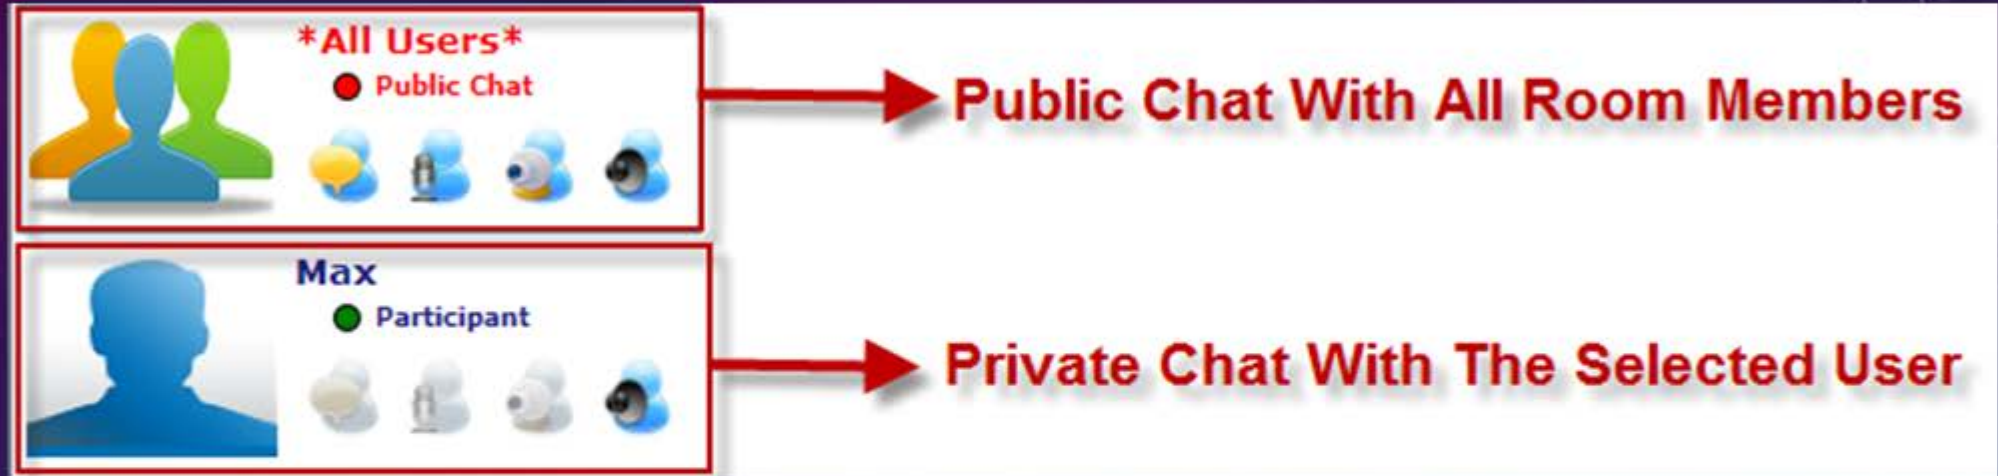

The screenshot displays the WCS PRO Home Workspace interface. At the top, a status bar shows "Welcome, Fadi Meeting Room 8/19/2014". On the left, there are panels for "\*All Users\*" (Public Chat) and "kikk" (Participant). The main area contains several windows: "Public Text Chat" with messages like "WCS Service Sent to You" and "Fadi Sent to All Room Members"; "Text Chatting With kikk" with "Fadi Sent to kikk"; and "Local WebCam" showing a blurred video feed. A taskbar at the bottom shows icons for "kikk", "Local WebCam Preview", "Public Collaborative...", and "Public Text Chat". A red arrow points from the text "Maximize/Minimize a Window" to the maximize/minimize button in the taskbar icon for "Public Text Chat". Another red arrow points from the same text to the maximize/minimize button in the title bar of the "Text Chatting With kikk" window.
